1.0 POLICY STATEMENT

NexaCorp Enterprises requires all employees to maintain regular, punctual attendance as a fundamental condition of employment. Consistent and reliable attendance is essential to meeting business objectives, maintaining team productivity, and delivering service excellence to clients and stakeholders. This Attendance Policy establishes standards for working hours, attendance recording, late arrival and early departure procedures, absenteeism management, and the payroll impact of attendance irregularities.

NexaCorp will leverage biometric systems, RFID card readers, mobile check-in, and web-based portals to accurately track and record employee attendance. All employees are required to adhere strictly to their designated shift timings and core hours unless a formal flexible arrangement has been approved.

2.0 APPLICABILITY & SCOPE

- Applicable to all full-time permanent employees across all NexaCorp locations.
- Contractual employees are subject to attendance requirements as specified in their contracts.
- Employees working from approved remote locations are subject to the remote attendance recording provisions described in Section 6.0.
- This policy applies to all departments, business units, and office locations of NexaCorp Enterprises.

3.0 OBJECTIVES

- To establish clear and consistent standards for employee attendance across all locations.
- To ensure accurate recording and monitoring of attendance using technology-enabled systems.
- To define the consequences of attendance irregularities including late arrivals, early departures, and absenteeism.
- To provide a fair and transparent process for attendance regularization and correction.
- To align attendance management with payroll processing and leave management systems.
- To minimize absenteeism and its impact on productivity, client commitments, and team morale.

4.0 WORKING HOURS & SHIFT POLICIES

NexaCorp Enterprises operates across multiple shifts to support global business operations. Employees are assigned to a specific shift at the time of joining or during a role change process. Shift assignments are communicated through the HRIS and confirmed in writing by the Reporting Manager.

Shift Name	Start Time	End Time	Total Hours	Break	Applicable Locations
General Shift	09:00 AM	06:00 PM	9 hrs (8 hrs work)	1 hr lunch	Corporate HQ, Regional Offices
Morning Shift	06:00 AM	02:00 PM	8 hrs (7.5 hrs work)	30 min	Operations, Manufacturing
Evening Shift	02:00 PM	10:00 PM	8 hrs (7.5 hrs work)	30 min	Operations, BPO, Support
Night Shift	10:00 PM	06:00 AM	8 hrs (7.5 hrs work)	30 min	IT, BPO, Security, Ops
Flexible Shift	Flexible	Flexible	8 hrs/day	As needed	Tech, R&D, Creative

- Night shift employees are entitled to a Night Shift Allowance as per the Compensation Policy.
- Shift changes require 7 calendar days' advance notice from the Reporting Manager to the employee.
- Employees working continuous night shifts for more than 30 days are entitled to a mandatory rotation to the general shift for a minimum of 15 days.

- Female employees are not required to work the Night Shift unless they provide explicit written consent, in compliance with applicable labour laws.

5.0 CORE HOURS & FLEXIBLE HOURS

5.1 Core Hours

Core Hours are mandatory attendance windows during which all employees must be present at their designated workstation (physical or virtual for remote workers). During core hours, employees are expected to be reachable and responsive.

Shift	Core Hours (Mandatory)
General Shift	10:00 AM – 01:00 PM and 02:00 PM – 05:00 PM
Morning Shift	07:00 AM – 12:00 PM
Evening Shift	03:00 PM – 08:00 PM
Night Shift	11:00 PM – 04:00 AM
Flexible Shift	11:00 AM – 03:00 PM (Fixed Core Window)

5.2 Flexible Hours

- Employees on the Flexible Shift may choose their start time within a window of 07:30 AM to 10:30 AM, provided they complete 8 hours of work inclusive of the core hours window.
- Flexible hours must be declared in advance (weekly) through the HRIS scheduling module.
- Flexible arrangements are available for employees at L4 and above, subject to Reporting Manager approval.
- Remote employees under the Work From Home Policy are also required to adhere to the core hours window.
- Flexible shift employees must be available for all scheduled team meetings regardless of their start time.

6.0 ATTENDANCE RECORDING METHODS

NexaCorp deploys multiple attendance recording mechanisms to ensure accuracy, redundancy, and convenience for employees across different work settings.

Method	Description	Applicable To	Backup Method
Biometric (Fingerprint/Face)	Physical biometric scanner at office entry.	All office-based employees.	RFID Card-based employees.
RFID Access Card	Proximity card swipe at access points.	All office-based employees.	Mobile App OTP
Mobile App (GPS-Enabled)	NexaCorp mobile app with GPS-based location tracking.	Remote/WFH/Field-staffed employees.	Mobile App OTP
Web Portal (HRIS)	Online self-service attendance marking.	All employees (if used).	Manager confirmation email

- Employees must mark attendance at both check-in (start of shift) and check-out (end of shift). Failure to check out will be flagged by the HRIS as a missing attendance record.
- Attendance data is synced with the HRIS and payroll system in real time.
- Attempts to manipulate or bypass attendance recording systems (including buddy punching) constitute a serious disciplinary offence.

- In the event of biometric system failure, employees must report to the HR desk or Security desk for manual registration. Manual records are uploaded to HRIS within 24 hours.

7.0 LATE COMING RULES

Punctuality is a professional expectation at NexaCorp Enterprises. The following rules govern late arrivals to the workplace or to the virtual workspace:

- A grace period of 10 minutes is provided beyond the scheduled shift start time.
- Arrival beyond the 10-minute grace period is recorded as a 'Late Arrival' in the HRIS.
- 3 late arrivals within a calendar month equal one half-day leave deduction from the employee's Casual Leave balance.
- If the employee has no Casual Leave balance, the deduction is applied against Earned Leave. If both are exhausted, a half-day salary deduction is processed.
- 6 late arrivals in a calendar month are treated as a formal attendance irregularity and trigger a counselling session with the Reporting Manager and HR Business Partner.
- Habitual late coming (more than 10 late arrivals in a quarter) may result in a formal written warning and inclusion in the Performance Improvement Plan (PIP).
- Employees are required to notify their Reporting Manager proactively if they anticipate arriving late.

Late Arrivals in Month	Consequence
1 – 2 times	Recorded; no deduction. Verbal reminder from Reporting Manager.
3 times	0.5 day Casual Leave deduction (or EL if CL exhausted).
4 – 5 times	1.0 day leave deduction + Manager counselling session.
6 times	1.5 day leave deduction + HR Business Partner meeting.
7 – 9 times	2.0 day leave deduction + Written Warning.
10+ times (in a quarter)	Formal written warning + PIP initiation + Manager escalation to HR Head.

8.0 EARLY DEPARTURE RULES

- Leaving the workplace before the scheduled shift end time without prior approval constitutes an 'Early Departure'.
- A grace period of 15 minutes before shift end is permissible for employees in the General Shift.
- Early departure must be pre-approved by the Reporting Manager via the HRIS or email. Unapproved early departure triggers a half-day leave deduction.
- 3 unapproved early departures in a month are treated identically to 3 late arrivals (combined metric).
- Medical emergencies may justify early departure; however, the employee must notify the Reporting Manager as soon as possible and submit supporting documentation within 2 working days.

9.0 ABSENTEEISM POLICY

Absenteeism refers to unplanned, unauthorized absence from work. NexaCorp distinguishes between authorized absence (approved leave) and unauthorized absence (AWOL — Absent Without Leave). The following framework governs absenteeism management:

Absenteeism Pattern	Classification	HR Action Required
1–2 days per month (no leave balance)	LWP – Leave Without Pay	Notify Reporting Manager; process LWP in payroll
3–5 consecutive days without approval	Unauthorized Absence	Manager + HRBP contact employee; LWP applied; written warning on record
5+ days without response	AWOL – Potential abandonment	HRBP initiates contact; legal notice if no response within 3 days
Pattern: >2 absences/month over 3 months	Chronic Absenteeism	HRBP-led intervention; medical evaluation referral; potential PIP
No show on first day after approved leave	Unauthorized Extension	Manager escalation to HRBP; LWP applied for extra days

- Absence without information for more than 3 consecutive working days is treated as abandonment of employment and may result in termination of employment following due process.
- Employees with chronic absenteeism (defined as more than 8 unplanned absences in a calendar year) will be referred to the Employee Assistance Programme (EAP).

10.0 MISSING ATTENDANCE REGULARIZATION

A missing attendance record occurs when an employee forgets to check in or check out. This can be regularized through the HRIS self-service portal within the following SLA:

- Employees must submit a Missing Attendance Regularization Request (MARR) within 3 calendar days of the missed check-in or check-out.
- The MARR must specify the reason for the missing record, actual in-time, and actual out-time.
- The Reporting Manager must approve the MARR within 2 business days.
- HR Operations validates the MARR against access card logs and security records.
- A maximum of 3 MARRs are permitted per month. Exceeding this limit triggers an automatic flag to the HR Business Partner.
- Repeated missing attendance records (more than 6 per quarter) may be treated as an attendance irregularity and result in disciplinary action.

Step	Actor	Action	Timeline
1	Employee	Submit MARR in HRIS with details	Within 3 days of missed record
2	HRIS System	Notify Reporting Manager for approval	Immediate
3	Reporting Manager	Review and approve/reject MARR	2 business days
4	HR Operations	Validate against door-access logs	1 business day post-manager approval
5	HRIS System	Update attendance record accordingly	Immediate post-validation
6	Payroll Team	Reflect corrected attendance in payroll	Next payroll cycle

11.0 ATTENDANCE CORRECTION WORKFLOW

In cases where attendance data is inaccurate due to system errors, biometric failures, or administrative mistakes, the Attendance Correction Workflow (ACW) is initiated:

- The employee raises an Attendance Correction Request (ACR) through the HRIS or via email to the HR Operations inbox.
- The ACR must include supporting evidence such as access logs, CCTV references, or manager confirmation.

- HR Operations reviews and processes the ACR within 3 business days.
- If the correction has a payroll impact, it is escalated to the Payroll Team for processing in the current or next pay cycle.
- Systemic errors affecting multiple employees are reported to the IT Helpdesk for root cause analysis.

12.0 MANAGER RESPONSIBILITIES

- Monitor daily attendance of direct reports through the HRIS Manager Dashboard.
- Communicate shift requirements and changes with at least 7 days' notice.
- Approve or reject Missing Attendance Regularization Requests within 2 business days.
- Counsel team members on attendance irregularities promptly and document discussions in the HRIS.
- Escalate chronic absenteeism patterns to the HR Business Partner.
- Ensure team members are aware of the attendance recording system and its proper usage.
- Conduct monthly attendance reviews and share feedback with the team during 1:1 meetings.

13.0 HR RESPONSIBILITIES

- HR Business Partners: Monitor attendance reports; conduct intervention sessions for chronic absenteeism; advise on policy compliance.
- HR Operations: Maintain attendance records in HRIS; process payroll adjustments for attendance-related deductions; generate monthly attendance reports for management.
- HR Head: Approve escalated exceptions; oversee attendance audit outcomes; approve disciplinary actions for attendance policy violations.
- HR Analytics: Generate quarterly absenteeism trend reports; identify patterns across business units; present findings to leadership.

14.0 PAYROLL IMPACT OF ATTENDANCE

Attendance irregularities directly impact an employee's monthly payroll. The following table summarizes the payroll implications:

Attendance Irregularity	Payroll Impact	Leave Type Deducted
Late arrival (1–2 per month)	No immediate deduction	None; warning only
3 late arrivals in a month	0.5 day deduction	CL first, then EL, then LWP
6 late arrivals in a month	1.5 day deduction	CL first, then EL, then LWP
Unapproved early departure	0.5 day deduction per instance	CL first, then EL, then LWP
Unauthorized absence (daily)	Full day deduction per day	Leave Without Pay (LWP)
Missing attendance (not regularized)	Full day LWP deduction	LWP
AWOL (5+ days)	LWP for all absent days + potential termination	N/A

Salary deduction calculation for LWP: Daily Salary = (Gross Monthly Salary / Working Days in Month). Total Deduction = Daily Salary x Number of LWP Days.

Note: LWP deductions are reflected in the payroll slip under 'Attendance Deductions'. Employees may raise payroll disputes through the Payroll Helpdesk within 5 working days of salary credit.

15.0 ESCALATION PROCESS

Level	Trigger	Escalated To	SLA
L1	Attendance irregularity not resolved by employee	Reporting Manager	1 business day
L2	Manager unable to resolve / chronic pattern	HR Business Partner	3 business days
L3	AWOL; fraud suspected; systemic issues	HR Head + IT (for system issues)	5 business days
L4	Termination consideration; legal issues	CPO + Legal Team	10 business days

16.0 ATTENDANCE AUDIT PROCEDURE

- HR Operations conducts monthly attendance audits covering all employees across all locations.
- Audit scope includes: late arrivals, early departures, missing attendance records, regularization patterns, and absenteeism trends.
- Audit findings are presented to respective Department Heads and HR Business Partners within the first week of the following month.
- Significant deviations or patterns are escalated to HR Head and included in the quarterly HR Leadership Dashboard.
- Random spot audits may be conducted during the year without prior notice to verify the integrity of attendance records.
- Discrepancies between biometric records and HRIS data are investigated by HR Operations with IT support and resolved within 5 business days.

17.0 COMPLIANCE REQUIREMENTS

- This policy complies with the applicable Shops and Establishments Act, Factories Act, and State Labour Laws.
- Working hours for employees are in accordance with applicable statutory requirements.
- All records are maintained for a minimum of 3 years in accordance with labour law record-keeping requirements.
- Night shift allowances are paid in compliance with applicable state regulations.
- Female employees' working hours comply with the prohibition of working during specific hours as per the Factories Act.

18.0 ROLES & RESPONSIBILITIES

Stakeholder	Key Responsibilities
Employee	Punctual attendance; accurate recording; prompt regularization of missing records.
Reporting Manager	Monitor team attendance; approve regularizations; counsel and document irregularities.
HR Business Partner	Attendance pattern analysis; intervention for chronic issues; policy interpretation.
HR Operations	HRIS maintenance; payroll adjustments; monthly audits; record management.
IT Team	Biometric system upkeep; HRIS availability; access control logs; technical issue resolution.
Payroll Team	Process attendance deductions accurately; resolve payroll disputes within SLA.

Stakeholder	Key Responsibilities
Security Team	Maintain access log records; support HR in attendance validation and investigations.

APPENDIX A – ATTENDANCE SCENARIOS

Scenario 1: Employee with 3 Late Arrivals

Kiran (L3, Software Developer) arrives 25 minutes late on 5th, 12th, and 18th March. His HRIS records 3 late arrivals. On 19th March, the HRIS auto-triggers a 0.5-day CL deduction. Kiran's CL balance drops from 9 to 8.5 days. His Reporting Manager receives a notification and schedules a brief counselling meeting.

Scenario 2: Unauthorized Absence – 4 Days

Meena (L2, Finance Executive) does not report to work from 8–11 April without informing her manager. After Day 2, her Reporting Manager escalates to HRBP. HR Operations marks 4 days as LWP. On Day 3, HR sends a formal communication requesting explanation. Meena returns on Day 5 with a medical certificate. HR reviews; 2 days are converted to SL (with documentation), and 2 days remain as LWP.

Scenario 3: Missing Attendance Record

Raj (L5, Project Manager) forgets to check out on the biometric system on 7th June. The HRIS flags a missing check-out. On 8th June, Raj submits a MARR stating he left at 6:30 PM. His manager approves the MARR on 9th June. HR Operations validates against the RFID log which confirms exit at 6:28 PM. Record is updated. No payroll impact.

Scenario 4: Habitual Late Coming – PIP Initiation

Sunita (L4, Sales Executive) accumulates 12 late arrivals in Q1. After the 6th late arrival, her manager had a counselling session. After the 10th, HR issued a written warning. At 12 late arrivals, HRBP recommends PIP initiation. Sunita is placed on a 90-day PIP with specific attendance targets (maximum 2 late arrivals per month). Progress is reviewed monthly.
