Appendix A Remote Work Scenarios	17

1.0 PURPOSE & GUIDING PHILOSOPHY

NexaCorp Enterprises recognizes that flexible work arrangements, including Work From Home (WFH) and hybrid work models, can contribute significantly to employee well-being, talent retention, and sustainable productivity. This Work From Home Policy provides a structured framework that enables employees to work remotely while maintaining the highest standards of performance, data security, client service, and team collaboration.

NexaCorp's approach to remote work is guided by three principles: Trust, Accountability, and Security. Employees are trusted to deliver their responsibilities from a remote setting; they are accountable for outcomes, communication standards, and policy compliance; and they are required to maintain the same data security practices as they would in the corporate office.

2.0 APPLICABILITY & SCOPE

- This policy applies to all eligible NexaCorp employees who have been formally approved for remote or hybrid work arrangements.
- Eligibility is role-based and does not apply to employees in operational or site-based roles that require physical presence.
- This policy applies to remote work from within India. International remote work is governed by Section 16.0.
- Contract employees may be eligible for remote work as specified in their individual contracts.
- This policy operates in conjunction with the IT Security Policy (IT-SEC-POL-003) and the Attendance Policy (HR-POL-002).

3.0 EMPLOYEE CATEGORIES & ELIGIBILITY

WFH eligibility varies by employee category. The following framework defines eligibility for each category:

Employee Category	WFH Eligible?	WFH Days Allowed	Approval Authority	Conditions
Permanent Employee (Confirmed)	Yes	Up to 2 days/week (Hybrid model)	Reporting Manager + HR Head	Performance in good standing; no active PIP.
Permanent Employee (Leave – Enhanced)	Yes	Up to 3 days/week	Reporting Manager + HR Head	Department must require client-facing physical presence.
Contract Employee	Case-by-case	As per contract terms	Reporting Manager + HR Head	Contract must specify remote work eligibility.
Probation Employee	Limited / No	Maximum 1 day/week	Reporting Manager + HR Head	Only after 90 days of service; performance must be satisfactory.
Intern / Trainee	No	Not eligible	N/A	Interns are required on-site for learning and mentorship.
Employee on PIP	Suspended	WFH suspended during PIP	HR Head must approve	WFH may be reinstated post-successful PIP completion.

Probation employees are not eligible for WFH during the first 90 days of employment. From Day 91 to the end of probation, a maximum of 1 WFH day per week may be permitted at the Reporting Manager's discretion, subject to satisfactory performance.

4.0 HYBRID WORK MODEL

NexaCorp operates a structured Hybrid Work Model requiring a minimum number of office days per week to maintain collaboration, culture, and team cohesion:

Employee Level	Minimum Office Days / Week	Minimum WFH Days / Week	Mandatory Office Days
L1 – L3 (Junior)	4 days	1 day	Monday, Wednesday, Thursday, Friday (typically)
L4 – L5 (Mid-level)	3 days	2 days	Tuesday, Wednesday, Thursday
L6 – L7 (Senior)	2 days	3 days	Wednesday + 1 additional agreed day
L8 – L10 (Leadership)	Flexible	As needed (business-driven)	Based on business calendar
Contract Employees	3 days	2 days	Per contract agreement

- Mandatory office days may be adjusted by the Reporting Manager based on business requirements, client visits, or team events.
- All-hands meetings, quarterly business reviews, appraisal discussions, and onboarding activities require physical presence and override WFH arrangements.
- Employees may not substitute WFH days with leave or vice versa without prior approval.
- The minimum 3 office days per week requirement applies to all employees at L4–L5 unless a formal exception is approved.
- Business units may define specific team anchor days (e.g., all team members in office on Tuesdays) that override individual WFH preferences.

5.0 WFH APPROVAL PROCESS

All WFH arrangements must be formally approved through the HRIS. Ad hoc or verbal approvals are not valid. The following workflow governs WFH approval:

Step	Actor	Action	SLA
1	Employee	Submit WFH Request in HRIS specifying dates, location, and reason.	
2	HRIS System	Auto-notify Reporting Manager for approval.	Immediate
3	Reporting Manager	Review availability, project requirements, and approve or reject.	Within 1 business day
4	HR Operations	For recurring WFH arrangements: HR reviews and registers in system.	2 business days
5	Employee	Confirm readiness (home office setup, VPN, connectivity) before WFH day.	Day before WFH
6	Employee	Mark remote attendance via NexaCorp Mobile App at shift start.	On WFH day

5.1 WFH Request Categories

- Ad Hoc WFH: Single-day WFH request due to personal necessity. Requires same-day or prior-day approval from the Reporting Manager.
- Recurring WFH: Regular weekly WFH schedule (e.g., every Monday WFH). Requires formal registration in HRIS and quarterly review.
- Extended WFH (> 30 days): Requires approval from Reporting Manager, Department Head, HRBP, and HR Head.
- WFH Due to Medical Reason: Supported by medical certificate; approved by Reporting Manager and HRBP; duration as per medical advice.

6.0 WORKSTATION REQUIREMENTS

Employees working from home must maintain a dedicated, professional, and secure home workstation that meets the following requirements:

Requirement	Standard	Responsibility
Dedicated workspace	A quiet, distraction-free space with adequate lighting suitable for video calls and focused work.	Employee
Company-issued device	All remote work must be performed on the NexaCorp-issued laptop with NexaShield active and VPN connected.	Employee
Secondary monitor	Optional; if personal monitor is connected to company laptop, it must be for display only. No data transfer via USB or other peripherals.	Employee
Ergonomic setup	Chair, desk, and monitor at appropriate height to prevent repetitive strain injuries.	Employee (NexaCorp provides allowance of Rs. 750 per month for approved WFH employees)
Power backup	Recommended: UPS or backup power to prevent disruption during power outages.	Employee
Printer (if required)	Printing of confidential documents at home is prohibited unless specifically authorized by the Department Head.	Employee

7.0 INTERNET & CONNECTIVITY REQUIREMENTS

7.1 Minimum Internet Specifications

Parameter	Minimum Standard	Recommended
Download Speed	25 Mbps	50 Mbps or higher
Upload Speed	10 Mbps	25 Mbps or higher
Latency (Ping)	Less than 100 ms	Less than 50 ms
Connection Type	Broadband or Fibre (Jio/Airtel/BSNL)	Dedicated fibre line
Wi-Fi Standard	Wi-Fi 5 (802.11ac) minimum	Wi-Fi 6 (802.11ax)
Router Security	WPA2 or WPA3 encryption; default router admin password must be changed	WPA3 + replacement SSID for work device

- Employees are responsible for maintaining internet connectivity for remote work. The Company provides an Internet Allowance of Rs. 750 per month for approved WFH employees.
- Connectivity failures must be communicated to the Reporting Manager immediately. Employees may use mobile hotspot (4G/5G) as a backup.
- Public Wi-Fi (cafes, restaurants, airports) must not be used for corporate work. If necessary, all traffic must be routed through NexaSecure VPN.
- VPN usage is mandatory during all WFH sessions when accessing NexaCorp internal systems. See IT Security Policy (IT-SEC-POL-003) Section 9.0.

8.0 COMMUNICATION & AVAILABILITY REQUIREMENTS

- Remote employees must be available on all official communication channels (email, Microsoft Teams, mobile phone) during their designated core hours.
- Response time expectations: Email within 2 hours; Teams/instant messaging within 15 minutes during core hours.
- Employees must maintain their status on Microsoft Teams as 'Available' during core hours. Setting status to 'Busy' or 'Do Not Disturb' for prolonged periods during core hours is not permitted without manager awareness.
- Remote employees must attend all scheduled team meetings (stand-ups, project reviews, 1:1s) via video call unless technical issues prevent it.

- Video participation in team meetings and client calls is expected unless the employee communicates a technical impediment in advance.
- Out-of-office notifications must be set for any period of non-availability during working hours, specifying an alternate contact.

9.0 MEETING ATTENDANCE REQUIREMENTS

Remote employees are expected to attend all scheduled meetings, both internal and external. The following guidelines apply:

- All-Hands Meetings (company-wide or department-wide): Physical attendance required unless employee is on approved full-day WFH and attends virtually with manager's pre-approval.
- Client Meetings: Physical attendance required unless the client explicitly agrees to a virtual format.
- 1:1 Manager Meetings: May be conducted virtually during WFH days.
- Team Stand-ups: Virtual participation acceptable during WFH days.
- Quarterly Business Reviews (QBR): Physical attendance mandatory; advance notice given to schedule office attendance.
- Onboarding Sessions (for new joiners): Physical attendance mandatory for the first 30 days regardless of WFH eligibility.

Meeting Type	WFH Day Attendance	Format
All-Hands Meeting	Physical presence required (unless exception approved)	Hybrid / In-person
Client Meeting	Physical unless client agrees to virtual	In-person preferred
Team Stand-up	Virtual acceptable	Video call
1:1 with Manager	Virtual acceptable	Video/Phone
Quarterly Business Review	Physical mandatory	In-person
Training / Learning sessions	Virtual acceptable	Online / Hybrid

10.0 PRODUCTIVITY EXPECTATIONS & DELIVERABLES

WFH is a privilege, not an entitlement, and is predicated on consistent delivery of work outcomes. Employees are expected to maintain or exceed their standard productivity levels while working remotely.

- Employees must complete all assigned tasks within the agreed timelines, regardless of work location.
- Deliverables must be submitted in the same quality and timeframe as when working from the office.
- Reporting Managers will track productivity through project management tools (Jira, Azure DevOps, MS Project) and regular check-ins.
- Declining productivity during WFH periods (as evidenced by missed deadlines, reduced output, or quality issues) may result in WFH privileges being revoked.
- Employees must maintain task and project status updates in the approved project management tools at least daily.
- Availability for emergency escalations during WFH hours is expected; employees must respond to urgent matters within 30 minutes.

11.0 MONITORING & REPORTING

NexaCorp reserves the right to monitor work activity on company-issued devices and networks to ensure productivity, security compliance, and policy adherence. Monitoring is conducted in accordance with applicable privacy laws and the NexaCorp Employee Privacy Notice.

- Attendance is recorded via the NexaCorp Mobile App GPS check-in at the start and end of each WFH day.
- IT Security monitors VPN connection logs to confirm corporate system access during work hours.
- Reporting Managers conduct a weekly WFH productivity check-in with all remote team members.
- HR Operations generates monthly WFH utilization reports, reviewed by Department Heads and HR Business Partners.
- Employees who are on WFH but do not connect to VPN or mark attendance may be recorded as absent (LWP) for that day.
- Productivity monitoring tools (activity trackers) are not deployed by NexaCorp; productivity is assessed by outcomes, not keystrokes.

12.0 EQUIPMENT RESPONSIBILITY & ASSET MANAGEMENT

- Company-issued equipment (laptop, peripherals, mobile phone where applicable) remains the property of NexaCorp at all times.
- Employees are responsible for the safety and care of company equipment while working remotely.
- Loss or damage to company equipment due to negligence is the financial responsibility of the employee. The cost of repair/replacement will be recovered from the employee's salary.
- Accidental damage may be covered under the company's equipment insurance policy; the employee must file an incident report with IT within 24 hours.
- NexaCorp provides a one-time home office setup allowance of Rs. 5,000 for purchasing ergonomic accessories (chair cushion, monitor stand, keyboard, etc.).
- All company equipment must be returned in good condition upon resignation, termination, or revocation of WFH privileges.

13.0 DATA SECURITY WHILE WORKING REMOTELY

Remote employees must apply the same data security standards as those required in the corporate office. The following additional measures are mandatory during WFH:

- VPN (NexaSecure) must be connected at all times when accessing NexaCorp systems remotely.
- Company data must not be transferred to personal devices, personal cloud storage, or personal email accounts.
- Employees must not conduct video or voice calls involving confidential or restricted information in a location where others (including family members) can overhear.
- Screens must be positioned to prevent visual eavesdropping (shoulder surfing) by household members or neighbours.
- Physical documents containing confidential or restricted information must not be printed at home unless explicitly authorized by the Department Head.
- Printed documents, if authorized, must be shredded using a cross-cut shredder (not placed in domestic waste).
- Employees must lock their screens when stepping away, even at home.
- Home network router must use WPA2 or WPA3 encryption; default credentials must be changed.
- Refer to IT Security Policy (IT-SEC-POL-003) for complete data security requirements.

14.0 EMERGENCY & FORCE MAJEURE SITUATIONS

- In the event of a natural disaster, pandemic, or city-wide emergency, NexaCorp may activate an Emergency WFH Protocol, allowing all employees to work remotely regardless of standard eligibility.
- The Emergency WFH Protocol is declared by the CPO in consultation with the CEO and Department Heads.
- During Emergency WFH, all employees must follow the standard WFH requirements of this policy with respect to connectivity, security, attendance, and communication.
- Employees who lose connectivity due to the emergency must notify their Reporting Manager via phone/SMS within 1 hour.
- Critical and Restricted data access during Emergency WFH requires additional IT Security clearance.

15.0 CROSS-CITY REMOTE WORK RULES

Cross-City Remote Work refers to situations where an employee works remotely from a city different from their designated office location within India.

- Cross-city remote work of up to 5 consecutive business days may be approved by the Reporting Manager without additional HR approval.
- Cross-city remote work of 6–30 business days requires approval from the Reporting Manager and HR Business Partner.
- Cross-city remote work exceeding 30 consecutive days requires approval from the Reporting Manager, HR Business Partner, HR Head, and Finance (for tax implications).
- Employees are responsible for their own travel, accommodation, and local expenses during cross-city remote work.
- Cross-city remote work does not qualify for travel reimbursement unless it is a formal business trip approved under the Travel Policy.
- Tax implications of working from a different state must be assessed by the Finance team for assignments exceeding 30 days.

16.0 INTERNATIONAL REMOTE WORK RULES

International Remote Work (IRW) refers to working from a location outside India. NexaCorp recognizes that employees may request to work internationally for personal reasons (family visits, personal travel) while remaining employed. IRW is subject to significant legal, tax, and security constraints and requires pre-approval.

- International remote work requires approval from: Reporting Manager + Department Head + HR Head + Finance (Tax) + Legal + CISO.
- Maximum duration: IRW may not exceed 30 calendar days in a rolling 12-month period without Board-level approval.
- Visa compliance is the employee's responsibility. NexaCorp does not sponsor visas for personal international remote work.
- Tax implications: Employees must ensure compliance with applicable tax laws in the foreign jurisdiction. NexaCorp will not bear any foreign tax liability arising from personal IRW.
- Data security during IRW: All VPN requirements apply. Employees working in high-risk jurisdictions (as defined by the CISO) must use an additional hardware VPN device provided by IT Security.
- Country restrictions: Employees may not work remotely from sanctioned countries or countries on the NexaCorp High-Risk Jurisdiction List (maintained by Legal).
- IRW does not affect the employment contract or salary; however, all compensation continues to be processed and taxed per Indian regulations.
- Employees must inform IT Security of the country they are working from at least 5 business days in advance.

Duration (Calendar Days)	Approval Required	Tax Review Required?	Legal Review?
1 – 7 days	Reporting Manager	No	No
8 – 14 days	Manager + Department Head	Yes (Finance to assess)	No
15 – 30 days	Manager + Dept Head + HR Head + CISO	Yes (mandatory)	Yes
31+ days	Board-level approval required	Yes (mandatory)	Yes (legal opinion required)

17.0 TRAVEL DURING WFH PERIOD

- Employees on scheduled WFH days may travel within their city without impacting WFH arrangements, provided connectivity and availability requirements are met.
- Employees on approved WFH who travel to another city for personal reasons must inform their Reporting Manager and ensure productivity is maintained.
- Business travel (approved under the Travel Policy) overrides WFH arrangements for the duration of the travel.
- WFH cannot be used to extend business travel for personal leisure. Employees must return to the designated office location within 2 business days of completing business travel.
- Any WFH during personal travel outside India triggers the International Remote Work rules under Section 16.0.

18.0 WFH REVOCATION CONDITIONS

WFH privileges may be revoked temporarily or permanently under the following conditions:

Condition	Revocation Type	Process
Active PIP (Performance Improvement Plan)	Immediate suspension during WFH	HR Head + Manager; employee notified in writing
Security policy violation (during WFH)	Immediate; pending investigation	CISO + HR; formal inquiry initiated
Chronic attendance irregularities (WFH period)	Immediate (30-day minimum)	Manager + HRBP; documented counselling
Persistent connectivity issues affecting WFH	Temporary until resolved	Manager + IT to assess; 15-day resolution window
Role change to site-based / client-facing	Permanent	HR to communicate at least 14 days prior
Organizational restructuring	As communicated	Department Head + HR communication
Repeated non-availability during core hours	Progressive: warning then revocation	Manager counselling followed by HR action

19.0 ROLES & RESPONSIBILITIES

Stakeholder	Key Responsibilities
Employee	Submit WFH requests in HRIS; maintain home office standards; adhere to connectivity and security requirements
Reporting Manager	Review and approve/reject WFH requests; monitor team productivity; escalate issues to HRBP; ensure team coverage
HR Business Partner	Policy interpretation; WFH pattern monitoring; approve cross-city and extended WFH; flag misuse.
HR Operations	Register recurring WFH arrangements in HRIS; process internet allowance; generate WFH utilization reports

Stakeholder	Key Responsibilities
IT Security	Monitor VPN compliance; provision MDM for BYOD; respond to security incidents during WFH; maintain
Finance Team	Process internet and ergonomic allowances; review tax implications of cross-city and international WFH
Legal Team	Advise on international remote work; country risk assessment; ensure compliance with local employment

20.0 ESCALATION MATRIX

Level	Trigger	Escalated To	SLA
L1	WFH request not actioned by manager within 1 business day	HR Business Partner	1 business day
L2	WFH revocation dispute; chronic productivity issues	HR Head	3 business days
L3	Security breach during WFH; international WFO non-compliance	ISO or HR Head and legal	4 hours (security) / 2 days (other)
L4	Formal grievance; policy dispute requiring policy revision	Policy Revision Redressal Committee	10 business days

21.0 FREQUENTLY ASKED QUESTIONS

Q: Can probation employees work from home?

A: Probation employees are generally not eligible for WFH during the first 90 days of employment. From Day 91 to the end of the probation period, a maximum of 1 WFH day per week may be considered at the Reporting Manager's discretion, subject to satisfactory performance. Probation employees are not eligible for recurring or extended WFH arrangements.

Q: What is the minimum number of office days required per week?

A: Employees at L4–L5 must work from the office a minimum of 3 days per week. Employees at L1–L3 are required to be in office 4 days per week. Senior employees at L6–L7 must attend the office a minimum of 2 days per week. The specific mandatory days may be determined by the Reporting Manager or team anchor day policy.

Q: What VPN do I need to use for remote work?

A: All remote employees must use the NexaSecure VPN client for accessing any NexaCorp internal system. Personal VPN software is strictly prohibited on company devices. Always-On VPN is enforced on company-issued laptops.

Q: Can I work from another country for a week?

A: Yes, subject to approval. International remote work of 1–7 days requires Reporting Manager approval. For 8–14 days, Department Head approval and a Finance tax review are additionally required. Employees must inform IT Security of the destination country at least 5 business days in advance.

Q: What happens if my internet fails during a WFH day?

A: Immediately inform your Reporting Manager via phone or SMS. Use mobile hotspot (4G/5G) as a backup. If connectivity cannot be restored within 2 hours, the Reporting Manager may require you to report to the office for the remainder of the day or accept it as a planned WFH disruption, documented in HRIS.

Q: When can WFH be revoked?

A: WFH may be revoked if the employee is placed on a Performance Improvement Plan (PIP), commits a security policy violation during WFH, demonstrates chronic attendance irregularities, or is moved to a site-based role. Revocation is communicated in writing by HR.

Q: Is the internet allowance taxable?

A: The internet allowance of Rs. 750 per month is provided as a reimbursement against actual bills and is not treated as taxable income, subject to submission of internet bills via the expense portal. Consult the Finance team for personal tax advice.

APPENDIX A – REMOTE WORK SCENARIOS

Scenario 1: Confirmed Employee – Standard Hybrid WFH

Arjun (L4, Product Manager, confirmed) requests to WFH every Monday and Friday. He submits a recurring WFH request in HRIS. His Reporting Manager approves the Monday WFH. Friday WFH is rejected as the team holds an anchor-day stand-up in the office. Arjun registers Monday as his recurring WFH day. He connects to NexaSecure VPN at 9:00 AM and marks attendance via the mobile app.

Scenario 2: Probation Employee Requesting WFH

Sneha (L2, Data Analyst, 45 days into probation) requests a WFH day. HR informs her that WFH is not available until Day 91 of probation. Sneha's request is rejected with an explanation of the eligibility criteria. Her Reporting Manager advises her to reapply after completing 90 days and notes her performance is on track for approval.

Scenario 3: International Remote Work Request

Ravi (L6, Solutions Architect) plans to visit his family in the UK for 3 weeks and wants to work remotely from London for 15 days. He submits an International Remote Work request in HRIS 10 business days in advance. The request is reviewed by his Manager, Department Head, HR Head, Finance (for UK tax implications), Legal (for UK employment rules), and CISO (for security configuration). All approve. IT Security provides an additional hardware VPN device. Ravi's salary continues under Indian payroll.

Scenario 4: WFH Revocation Due to PIP

Deepa (L3, Customer Success Executive) is placed on a 90-day Performance Improvement Plan due to declining KPIs. Per policy, her WFH privileges are immediately suspended. HR communicates this in writing. Deepa is required to attend the office 5 days a week during the PIP period. Upon successful completion of the PIP, her Reporting Manager may reinstate WFH privileges with HRBP approval.

Scenario 5: Security Breach During WFH

During a WFH session, Mohan (L5, Finance Manager) unknowingly clicks on a phishing link that installs malware on his company laptop. NexaShield detects the malware and alerts IT Security within 5 minutes. IT Security quarantines Mohan's device remotely, disconnects his VPN session, and contacts him via phone. Mohan's WFH privileges are suspended pending investigation. The incident is classified as High severity and escalated to the CISO. Mohan is required to complete advanced security training before WFH privileges are reinstated.
